## **WEEE Directive compliance statement.**

On the 2nd January 2007, The European Waste Electrical & Electronic Equipment directive came into force within the U.K.

At Interquartz, we take our environmental responsibilities very seriously and started work towards achieving compliance back in May 2005.

As a producer of WEEE under category 3 – Telecommunications equipment, supplying solely Business to Business, Interquartz UK Ltd registered with an **Approved Producer Compliance Scheme** – Repic Ltd, in March 2007 and obtained it's producer registration no. from the Environment Agency in April 2007. The number is: **WEE/HK0057TS**.

**All Interquartz products have been WEEE compliant since July 2005.**

All redundant Interquartz equipment should be sent to an **Approved Authorised Treatment Facility** for end of life disposal. For a current list, please consult the Environment Agency website at <http://www.environment-agency.gov.uk>
